

## **BEML DEMONSTRATES ITS PROWESS IN EXCON-2011** **A series of Innovative Earthmoving Equipment launched**

BEML LIMITED, the premier earthmoving equipment manufacturing Public Sector Company under the Ministry of Defence, has put up a big show in the EXCON-2011, the 3<sup>rd</sup> Largest Construction Equipment Exhibition in Asia, being held at Bangalore Exhibition Centre from 23<sup>rd</sup> to 27<sup>th</sup> November 2011.

BEML, the globally renowned brand in the Construction and Mining Equipment like Dozers, Excavators, Dumpers, Pipe Layers, Water Sprinklers, Walking Draglines, Rope Shovels etc., is continuously upgrading its products line with R&D innovations, thus enabling its valued customers to benefit with cost-effective operations through BEML Equipment.

The twin purpose construction equipment BE220R that  
Performs on both Rail & Road

At EXCON-2011, BEML CMD Shri V RS Natarajan has launched a R&D product viz., BE220R Hydraulic Excavator deployable in both Rail & Road construction activities. This equipment will perform dual role in the construction activities of both in laying of new Railway track line, repair and maintenance of rail tracks and also in the regular earth excavation. This Equipment is high versatile in performance. The other innovative equipment launched at EXCON-2011 is BL9H Backhoe Loader, the 'WORK HORSE' series, for construction applications and Municipal Corporations. Additionally, for the first time, BEML has introduced all purpose BE 450 LC Excavator that can be extensively used for both mining and construction applications. Besides, BEML is also exhibiting BG 605 Motor Grader and BG 405 Motor Grader with operator friendly joy stick controls and ergonomic display panel is being displayed for the first time, for road construction and BE75 heavy duty mini Excavator.

BEML has 4 Manufacturing Complexes with national network of 11 Regional Offices, 15 district Offices, 4 Zonal Service Centres and 1 Global Service HQ apart from 4 Overseas Establishments at China, Brazil, Indonesia and Malaysia to cater to its overseas customers in over 55 countries across the globe.
